EDUCATION

Pune Institute of Computer Technology | 2020 – 2024

B.E. in Computer Engineering | CGPA: 9.35/10

INTERNSHIPS

Software Engineering Intern — Zylker Solutions | Jan 2024 – June 2024 | Pune, India

- Developed 12 REST API endpoints in Node.js and Express for enterprise asset tracking workflows.
- Reduced PostgreSQL query execution latency by 35% via indexing composite foreign keys and Redis caching.
- Collaborated with senior engineers in bi-weekly Agile sprints to deliver unit-tested pull requests.

Frontend Developer Intern — Quanta Labs | May 2023 – July 2023 | Remote

- Built 8 reusable UI widgets using React.js, TypeScript, and Tailwind CSS for client dashboard.
- Integrated OAuth 2.0 authentication flows and JWT session validation handling over 5,000 daily active users.

PROJECTS

Distributed Key-Value Store | Go, Raft Consensus, gRPC | GitHub

- Implemented leader election and log replication using the Raft distributed consensus protocol in Go.
- Benchmarked cluster throughput handling 15,000 read requests per second across 3 distributed nodes.

TECHNICAL SKILLS

Node.js, Express.js, React.js, TypeScript, Go, PostgreSQL, Redis, Docker, Git, REST API

LANGUAGES

English (Fluent), Marathi (Native), Hindi (Professional)
