EXPERIENCE

CloudStream Networks | Backend Systems Engineer | March 2022 – Present | Chennai, India

- Engineered high-throughput video streaming ingestion services in Go and gRPC processing 100k requests/sec.
- Designed Cassandra partitioned column families optimizing read latency to p99 < 12ms for user history lookups.

HyperScale Solutions | Backend Developer | June 2020 – February 2022 | Bengaluru, India

- Developed microservices in Python and FastAPI communicating via RabbitMQ message brokers.
- Migrated legacy monolithic billing database from MySQL to PostgreSQL with zero data loss.

MicroData Analytics | Junior Software Engineer | July 2018 – May 2020 | Chennai, India

- Built RESTful API endpoints using Java and Spring Boot supporting enterprise analytics dashboards.
- Maintained CI/CD pipelines using Jenkins, Docker, and Kubernetes on AWS.

EDUCATION

IIT Madras | 2014 – 2018

B.Tech in Computer Science | CGPA: 9.0/10

TECHNICAL SKILLS

Go, Python, Java, Spring Boot, PostgreSQL, Cassandra, Redis, RabbitMQ, gRPC, Docker, Kubernetes, AWS
