EXPERIENCE

Machine Learning Research Engineer — DeepMind Labs Affiliate | August 2021 – Present | Kolkata, India

- Published 2 papers at top-tier NLP venues on parameter-efficient fine-tuning (PEFT) with LoRA and QLoRA adapters.
- Trained transformer models up to 13B parameters on multi-GPU compute clusters using PyTorch and DeepSpeed.

EDUCATION

Indian Statistical Institute Kolkata | 2019 – 2021

M.Tech in Computer Science | CGPA: 9.4/10

Jadavpur University | 2015 – 2019

B.E. in Information Technology | CGPA: 9.1/10

RESEARCH PROJECTS

Quantized LLM Inference Runtime | Python, PyTorch, CUDA, C++ | GitHub

- Engineered a 4-bit INT4 quantization tensor library achieving 3.2x faster inference latency on NVIDIA GPUs.

TECHNICAL SKILLS

Python, PyTorch, TensorFlow, DeepSpeed, CUDA, Transformers, HuggingFace, Linux, C++, Docker, Git
