EXPERIENCE

Senior Cloud Infrastructure Engineer — Apex Cloud Technologies | May 2021 – Present | Hyderabad, India

- Engineered highly available Terraform infrastructure as code (IaC) modules governing 120 multi-region AWS accounts with strict automated security guardrails and compliance auditing.
- Migrated high-throughput real-time payment data ingestion pipeline from monolithic PostgreSQL databases to partitioned Cassandra cluster nodes reducing 99th percentile query latency.

PROJECTS

Kubernetes Multi-Cluster Operator — Hybrid Cloud Ingress | Go, Kubernetes, Docker | GitHub

- Designed and implemented a custom controller in Go synchronizing ingress route configurations and TLS certificates automatically across distributed bare-metal clusters.

EDUCATION

Osmania University | 2017 – 2021

Bachelor of Engineering in Electronics and Communication | CGPA: 8.92/10

TECHNICAL SKILLS

Terraform, AWS, Kubernetes, Docker, Go, Python, Cassandra, PostgreSQL, Linux, CI/CD, Git
